i. Adrienne Lance-Lucas Revised Proposal Questions

1. What are the comparative deliverables between the 30-month and 18-month proposed timelines for the same SOW?
2. What is the difference in the ROI we can expect between the 30-month and 18-month. I recall that with the 18-month timeline you communicated we could expect to see a ROI at the end of 2nd year/beginning of the 3rd year. How will this change for the 30-month?
3. Can you provide more clarity/details around how the project-based option will work?
4. What percentage of time will each PM have on the GIA consulting project regardless of which timeline we choose? III. Action Items
